In addition, Client will be charged \$0.008/minute for usage above the fair usage limit in a given monthly billing cycle. As an example, if the Client has 10 SIP Sessions and uses 18,000 minutes in a given month within the Local Calling Footprint the Client has used an average of 1,800 minutes per SIP Session during the billing period. This is an excess of 100 minutes per SIP Session and 1,000 minutes for the overall account. The excess minutes within the Local Calling Footprint are subject to a one-time charge of \$8.00. Note that calls outside of the Local Calling Footprint are metered as per the calling plan definition.
